Making a Difference

Volunteering at Unity Family Healthcare began in the 1940s when volunteers first served hospital patients by delivering flowers and mail. Such services enhanced the comfort and care of the patient and became important in the hospital's ability to supplement the basic duties and quality care provided by staff. Over the years, volunteer opportunities expanded and today, there are a variety of ways volunteers can add to the services at each facility of Unity Family Healthcare.

Our Mission

The mission of the Volunteer Department is to provide added services to supplement the quality of healthcare — helping patients, families, staff, visitors, and the entire community adjust to the trauma of an illness or injury.

Flexible Scheduling

Unity Family Healthcare offers flexible scheduling — a variety of days and hours to choose from for your convenience and preference. Orientation and special on-the-job training are provided to each volunteer. Individuals can volunteer weekly, bi-weekly, or monthly, and have the option to work around planned vacations or other obligations.

Anyone Can Volunteer

Volunteers are men and women of all ages, backgrounds, and abilities.

Retired Men and Women can share their wisdom and friendship, enriching the lives of others as well as their own.

Employed People can find volunteer work an interesting and rewarding change of pace to their paid jobs.

Stay-at-Home Parents may find volunteering the perfect opportunity to meet others and develop new friendships, while at the same time, gaining new experiences and skills.

Students who volunteer not only learn from their experiences, but also cultivate career interests.

Getting Involved

Now that you know the basic facts of becoming a Unity Family Healthcare volunteer, please give us a call, visit our website, or send in this form to explore volunteer opportunities in greater detail.
